## Contents

### Economic developments

1	Industrial activity indicators – Monthly Business Survey – France	S3
2	Industrial activity indicators – Monthly Business Survey – France (NAF revision 2, seasonally-adjusted data)	S4
3	Consumer price index	S5
4	The competitiveness of France's economy	S6
5	Balance of payments – Main components (quarterly data) – France	S7
6	Balance of payments – Current and capital accounts (quarterly data) – France	S8
7	Balance of payments – Financial flows (quarterly data) – France	S9
8	Balance of payments – Geographical breakdown (quarterly data) – France	S10
9	Balance of payments (monthly data) – France	S11
10	France's international investment position (direct investment measured at book value)	S12

### Money, investment and financing

11	Main monetary and financial aggregates – France and the euro area	S13
12	Banque de France Monthly Statement	S14
13	Deposits – France	S15
14	Time deposits – France	S16
15	Loans extended by credit institutions established in France to French residents – France	S17
16	New loans to residents – France	S18
17	Investment and financing – Insurance corporations and pension funds – Euro area and France	S19
18	Investment and financing – Households – Euro area	S20
19	Investment and financing – Households – France	S21
20	Investment and financing – Non-financial corporations – Euro area	S22
21	Investment and financing – Non-financial corporations – France	S23
22	Interest rates on bank deposits – France and the euro area	S24
23	Interest rates on bank loans – France and the euro area	S25
24	Usury rates on loans to households and cost of business credit – France	S26

## Financial markets and interest rates

25	Interest rates	S27
26	Banking system liquidity and refinancing operations – Euro area	S28
27	Eurosystem key rates; minimum reserves	S29
28/29	Negotiable debt securities – France	S30/31
30	Mutual fund shares/units – France	S32
31	Debt securities and quoted shares issued by French residents	S33
32	Debt securities and quoted shares issued by French residents, by sector	S34

## Other statistics

33	Company failures by economic sector – France	S35
34	Retail payment systems – France	S36
35/36	Large-value payment systems – EU	S37/38
37	Large-value payment systems – France	S39

### Nota bene

*Statistical data are updated monthly on the Banque de France's website.*

	<b>94</b>	<b>95</b>	<b>96</b>	<b>93</b>	<b>95</b>	<b>94</b>	<b>96</b>

a) Data given as a balance of opinions. Forecast series are adjusted for bias when it is statistically significant.

b) Data given as a percentage.

c) The indicator summarises industrial managers' sentiment regarding business conditions. The higher the indicator is, the more positive the assessment. The indicator is calculated using a principal component analysis of survey data smoothed over three months. By construction, the average is 100.

### France and the euro area

(annual % change)

### International comparisons

(annual % change)

a) Harmonised indices except for the United States and Japan (national indices).

b) The series of seasonally adjusted monthly changes in the HIPC is not available for the European Union.

c) Gap between the extreme values of harmonised price indices observed in the euro area (changing composition).

**Table 4**  
The competitiveness of France's economy

Indicators deflated by consumer prices

(1st quarter 1999 = 100)

Indicators deflated by consumer prices

(1st quarter 1999 = 100)

Indicators of competitiveness compared to 24 OECD countries

(1st quarter 1999 = 100)

Grey area: change in competitiveness compared to long-term average less than 5%.

a) These statistics are transmitted to the European Central Bank, on the 15th working day following the end of the month to which they relate, within the production of the consolidated balance sheet of the monetary financial institutions (Regulation ECB/2008/32).

b) This item includes the outstanding amounts of market operations.

c) Including the adjustment linked to the method of accounting used for measuring the euro notes on the liability side of the balance sheet of the Banque de France since January 2002.

d) Since January 2002, banknotes in circulation are treated according to specific euro area accounting conventions to bring them in line with the capital key share. 8% of the total value of euro banknotes in circulation is allocated to the European Central Bank. The remaining 92% is broken down between the NCBs in proportion to their share in the paid-up capital of the ECB.

e) Coins in circulation are not a liability of MFIs in the participating Member States, but a liability of the central government. However, coins are part of the monetary aggregates and, by convention, this liability is to be entered under the category 'currency in circulation'. The counterpart to this liability is to be included within 'remaining assets'. (Regulation ECB/2008/32.)

f) The total of the balance sheet at end 2012 published in March 2013 (731.8 bn) can be calculated by subtracting from the total of the Monthly Statement at end December 2012 (737.3 bn): coins (2.9 bn) and miscellaneous amounts linked to the accounting gap between the statement established in the early January 2013 and the Annual Accounts, which include all the year-end entries (2.6 bn).

**Market share of each financial centre in the TARGET2 system**

(% of turnover)

The sum of the components may not be equal to the total (or to 100) due to rounding.

Since January 2009, a new methodology for collecting and reporting statistics has been established on the TARGET2 data to improve data quality. This must be taken into account when comparing 2009 data with previous data.

a) Since 19 May 2008, the operations of the United Kingdom pass in transit by this country.

b) Variable composition according to the countries which participate in the systems of payment in euro.

c) Euro1 (EBA): clearing system of the Euro Banking Association. Euro1 data include retail payments recorded in STEP1.

**Market share of each financial centre in the TARGET2 system**

(% of volumes exchanged)

**Average transaction amount in the TARGET2 system**

(EUR millions)

The sum of the components may not be equal to the total (or to 100) due to rounding.

Since January 2009, a new methodology for collecting and reporting statistics has been established on the TARGET2 data to improve data quality. This must be taken into account when comparing 2009 data with previous data.

a) Since 19 May 2008, the operations of the United Kingdom pass in transit by this country.

b) Variable composition according to the countries which participate in the systems of payment in euro.

c) Euro1 (EBA): clearing system of the Euro Banking Association. Euro1 data include retail payments recorded in STEP1.

**Monthly change in amounts exchanged in French payment systems<sup>a)</sup>**

(EUR billions, daily average)

**Monthly change in collateral<sup>b)</sup>**

(EUR billions, daily average)

**Collateral used in June 2013<sup>b)</sup>**

a) Since 18 February 2008, TBF (the French component of TARGET) and PNS systems have been replaced by TARGET2-Banque de France, the single French large-value payment system.

b) Until 15 February 2008, the indicated amounts corresponded to collateral used for intraday credit in TBF. Since the go-live of the "3G" system (Global management of collateral) and TARGET2-Banque de France on 18 February 2008, the amounts represent the collateral posted in a single pool of assets and that can be used for monetary policy and/or intraday credit operations.

c) Other foreign securities submitted via links between securities settlement systems.

## Time series

### Money
